

## **FIRST AID**

1. Purpose. This document establishes procedures for first aid and/or medical treatment for on-the-job injuries or illness.
2. Applicability. This document is applicable to all Portland District elements.
3. References.
  - a. Title 29, CFR, Part 1910.151 b. Title 29, CFR, Part 1926.50 c. EM 385-1-1.
4. Procedures.
  - a. Every injury and illness incurred on the job, regardless of degree of seriousness, will be given prompt attention.
  - b. The plan outlined in Annex A is applicable to employees of the Portland District in the Robert Duncan Plaza Building, and Portland Resident Office, Troutdale, OR.
  - c. Installations outside of the immediate Portland area will prepare a similar plan and ensure employees are familiar with the plan.
5. First Aid Kits.
  - a. Individual pieces of floating plants, drill crew vehicles, survey party vehicles and other isolated field work units are required to have a 16-unit first aid kit.
  - b. Vehicles regularly utilized by employees working at remote sites, and security guard and ranger vehicles will have prescribed first aid kits.
  - c. Standard 16-unit first aid kits will be utilized IAW para 03.B, EM 385-1-1.

6. First Aid/CPR Training:

a. First Aid/CPR training is required, but not restricted to the following employees:

- (1) Designated building first aid representatives.
- (2) Disaster team personnel.
- (3) Key personnel engaged in reservoir management.
- (4) Power plant operators.
- (5) Key personnel on pile drivers, dredges, towboats, drill, and survey parties.
- (6) Launch operators.
- (7) Hired labor foremen.
- (8) Rangers.
- (9) Construction representatives.
- (10) Individuals who routinely work alone in remote areas.
- (11) At least one person with each party of two or more working in remote areas.

b. First Aid/CPR trained personnel will hold a current certificate in first aid training from the American Red Cross or other certified sources.

c. Contact either your local Red Cross or the Portland District's Safety Office to make arrangements for training.

7. Accident Investigation and Compensation Reports. Following initial emergency treatment, the procedures outlined in DR 690-1-810 concerning the preparation and submission of injury and compensation reports, will be followed. All CA-1s/CA-2s will be accompanied by an ENG Form 3394, United States Army Corps of Engineers Accident Investigation Report. All CA-1s/CA-2s and ENG Forms 3394 will be routed to the SOHO. After CA-1s/CA-2s are coded, they will be forwarded to CPAC for processing.
